

Backpack Flag

Assembly Instructions

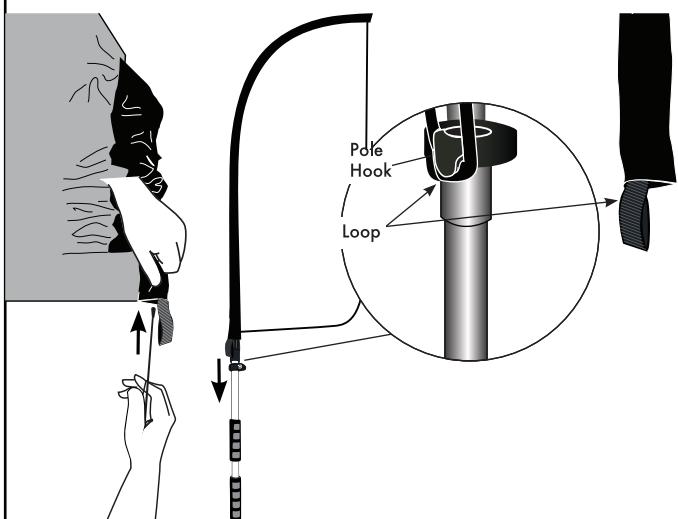

- 1 Place all parts on a clean flat surface.

- 2 Connect all poles by inserting them into each other, starting from the bottom. Adjust the height of the bottom pole accordingly by rotating the top crank to loosen and tighten.

- 3 Carefully insert the top end of the assembled poles into the pole pocket on flag. Push the pole through as far as it will go until it hits the end. Attach the loop at the bottom of the flag to the pole hook located on the bottom pole.

DO NOT FORCEFULLY PUSH THE POLE OR IT COULD SNAP.

- 4 Attach and snap the bottom pole to the pole clamps on the backpack.
