Attach Cluster Brackets

Orient pole with bottom snap-button closest to the ground. Slide top bracket over top of pole with ports facing upward. Press snap-button in and lock bracket into place. Repeat with bottom bracket from bottom of pole.

IMPORTANT Complete step 1 on separate card before beginning the hardware assembly steps below.

*5 Balloon Cluster Kit pictured

2.1

Attach the top balloon to the center pole by pushing the stem down into the pole until it clicks into place.

2.2

Repeat the the push-button method when applying the remaining stems to the bracket/s.

2.3

Finally, drive the optional screws into each stem, locking them into place.

2.4

Assemble your chosen mounting option shown below using Step ③ to complete your Cluster Pole Kit.
